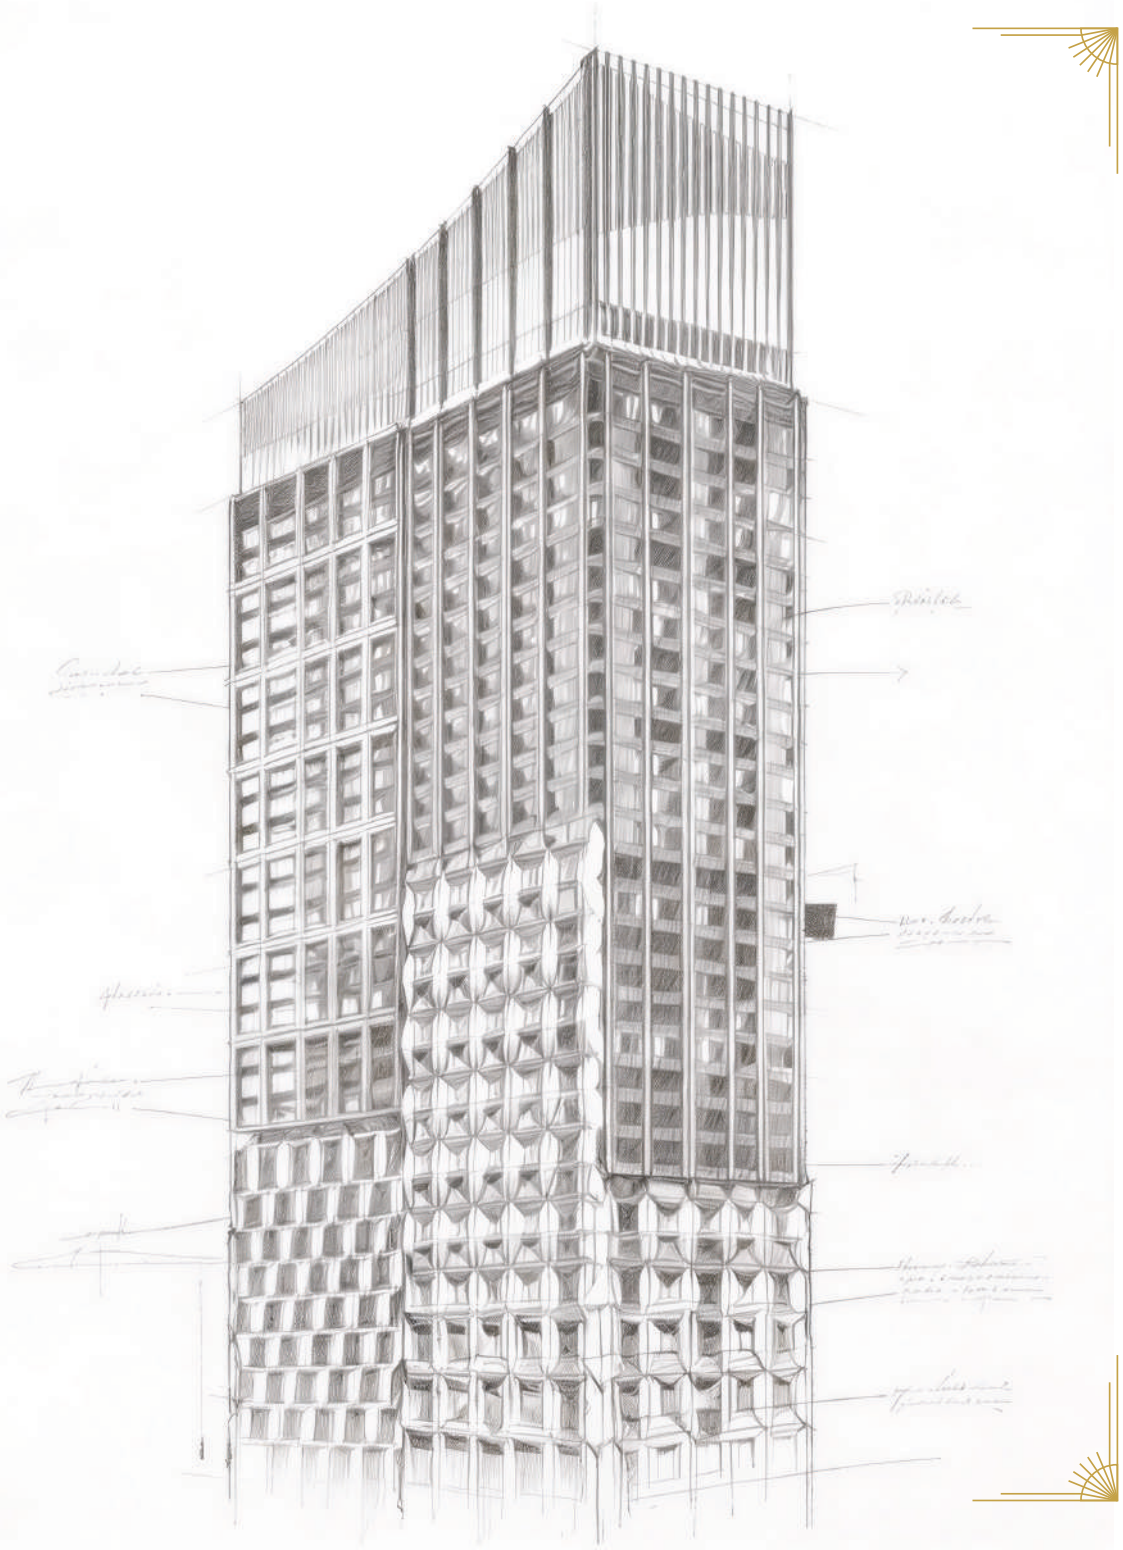
# Architect’s Concept

## TIMES SQUARE – The Gatsby Residence

*“ There are books that leave a lasting impression and inspire dreams; among them is The Great Gatsby, F. Scott Fitzgerald's iconic 1925 novel. We all aspire to live within our dreams, and that is precisely what Times Square invites you to discover through this new residence.*

*The architecture, defined by its striking facades, transports us to a world of adventure and luxury. It evokes an extraordinary era where design influenced architecture through bold geometry and the integration of sumptuous decorative elements.*

*Within this world, Times Square invites you to relive a fantastic period where luxurious materials and a harmony of colors and textures offer a profound sense of comfort, power, and tranquility.*
*In response to the precise geometry of the exterior, the entrance hall welcomes you into a feverish Art Deco dream. Guests are greeted by an avalanche of luxurious crystal chandeliers, refined materials, and gilded filigree ceilings. Bold geometric patterns and extraordinary works of art create a space that feels both historic and timeless.*



*The color palette is a sophisticated harmony of metal, crystal, silver, and mirrors.*

*To create a softer, more inviting effect, these are paired with neutral Art Deco color schemes—pastels, beiges, and creams—that complement lacquered wood and steel and polished glass surfaces.*

*The Gatsby Residence embodies a design style that conveys the elegance of the Phnom Penh social scene. It recalls the glamour of luxury cruise liners, the ambition of early skyscrapers, and the cinematic fantasy of Hollywood, Miami Beach, and New York.*

*The rooftop serves as a tribute to the joy of celebrating life. It is a place for gathering and sharing our best moments with loved ones, ensuring the spirit of the party stays in full swing. The great era of Gatsby has returned."*
